Gemark to Work with West Virginia's Governor to Train Employees

Bluefield, WV: Gemark Services of West Virginia is pleased to announce their involvement in the State of West Virginia's Governor's Guaranteed Work Force Program. An award of \$3,525 will be funded to Gemark from the West Virginia Development Office to offer customized training to Gemark employees.

The Governor's Guaranteed Work Force Program provides financial and technical assistance to West Virginia's new and expanding businesses, for the purpose of training, retraining, or upgrading the skills of existing and new employees. Gemark is excited to work with West Virginia for West Virginia.

Gemark will contribute \$1,175 making a total combined training budget of \$4,700. All money for the project goes specifically towards training and does not get used for the wages for the time when the training takes place. In fiscal year 2008, 6,343 employees at 91 West Virginia companies received training through the Governor's Guaranteed Work Force Program.

Gemark has 4 plant locations in the United States and recognizes its connection to the local communities at each of these locations. Gemark Corporation's mission is to provide the very best services and returns on assets within the precious metals and plastic industries in a safe, secure, and environmentally friendly manner. Gemark Services of West Virginia is a key location for processing materials and also houses the corporate headquarters for Gemark Corporation.
